

目 录-DIRECTORY-

铝及铝合金在搞新兵器中的应用

Application of Al and Al alloys in high-tech an new weapons

5XXX 系铝合金汽车板研究进展

Research development of 5XXX series Al alloy sheet for automotive

铝合金铸锭生产中熔体净化

Melt purification in the production of aluminum alloy ingots

AlZn8Mg2Cu2 合金 **50mm** 热轧板固溶处理工艺研究

Study on solution treatment technology of AlZn8Mg2Cu2 alloy hot-rolled plate with 50 mm thickness

铝箔暗面亮点缺陷成因及其预防措施

Formation for bright spots on the matte side of aluminum foil an its prevention measure

轧制组织特征对 **7B50-T7751** 铝合金厚板断裂韧性的影响

Effect of rolling microstructure characteristics on fracture toughness of 7B50-T7751 aluminum alloy thick plate

控温控轧对 **3003** 铝合金薄板组织和性能的影响

Influence of the thermo mechanical controlled process on microstructure and properties of 3003 aluminum alloy sheet

空腔铝型材胀裂试验开裂原因

Cause of the cracking of hollow aluminum profile in the drift expanding test

铝挤压筒智能高效长寿命直插式金属加热管的研究与应用

Research an application of the insert-type metal heating tube of the Al container with intelligent control, high effect and long

屑挤压 **ZM6-3.5Ce** 镁合金的组织 and 力学性能

Microstructure and mechanical properties of ZM6-3.5Ce magnesium alloy produced by extrusion of machined chips

影响超硬铝合金微弧氧化陶瓷膜层的因素

Factors influencing the micro-arc oxidation ceramic coatings of super hard aluminum alloys

一种铝易拉罐针孔缺陷的分析

Analysis of a kind of pinhole defect of aluminum cans

电脉冲处理对 **7A04** 铝合金腐蚀性能的影响

Effect of electric pulse modification on corrosion resistance of 7A04 aluminum alloy
